

## ERRATA

Please note: This sheet contains corrections to the Appendix of Wis. Adm. Code Chapter Ind 22, Uniform Dwelling Code.

Method I, Acceptable Practice Method, step 5, on page 11: 10.4% single glazed should be 24.8% double glazed.

Table A-1, Wall Insulation Guide, on page 12: the term "extruded polystyrene" is intended to mean all types of rigid insulation board materials.

R-value determination by component, on page 16: wall stud value 6.88 should be 4.38.
